Arrival at Jaén Dinner and overnight to your Hotel.

Rusty Breasted by Steve Bird

Cinnamon Breasted by Peet van Schalkwyk

DAY 3 HUEMBRO-ABRA PATRICIA

After breakfast we will go to Huembo reserve. On the way we can observe Little Inca-Finch, Marañon Spinetail and Little Woodstar. Huembo reserve is located in Utcubamba valley and features an interpretive center which is managed by the local community and managed by ECOAN also is recognized by the Alliance for Zero Extinction as a conservation priority due to the presence of Marvellous Spatuletail (*mirabilis Loddigesia*), here we have the opportunity to see this beautiful bird, which is probably the most spectacular of all hummingbirds.

We also will see many other birds as Emerald-bellied Puffleg, Little Woodstar, Long-tailed Sylph, Purple-collared Woodstar and maybe yellow-tailed monkey. After box lunch we will go to Private Conservation Abra Patricia area, located in the Amazon region, which protects mountain forests and cloud forests, being home to many endemic and threatened birds in danger of extinction, as Longwhiskered Owlet (*Xenoglaux*

loweryi). To observe this bird we will walk by night one kilometer in steep terrain. Lunch and dinner in Abra Patricia in Owllet Lodge.

B-BL-D.
